

REMARKS

Claims 1-37 are pending. The specification and claims were amended to correct typographical errors.

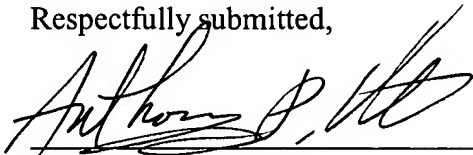

The Amendment to paragraph [0007] removes a patent listed twice in the paragraph. The Amendment to paragraph [0067] changes graphite mold to metal mold. This is supported throughout the specification including being supported by the Title. Claim 24 was amended as supported at page 18 of the originally filed application.

Respectfully submitted,

Date:

March 30, 2004
